Nebraska Lt. Governor **Homeland Security Policy Group Nebraska Council of Regions Nebraska Wireless Interoperable Network (N-WIN) Council** (NCOR) **System** 1. Provide for governance/policy direction for planning 1. Provide oversight & integration for eight public safety **Support** /decisions regarding development/operations of N-WIN communications regions & coordinate with N-WIN 2. Provide leadership for public safety communications 2. Developing/implementing State Communications 3. Develop strategies/recommendations to improve Interoperability Plan operations of N-WIN; consult w/OCIO in new technology 3. Foster collaboration among stakeholders at local, 4. Promote interoperability for public safety federal, & state level G&P communications w/in NE & w/border states. 4. Provide policy direction/coordination for planning & 5. Provide oversight development of protocols, SOPs & decisions regarding regional integration with N-WIN Resources for Admin support guidelines for use of N-WIN 5. Develop strategies and recommendations to improve for NWIN and SRS. Mutual operations of wireless communications network 6. Coordinate/provide planning, training, exercising for **NEMA** NCOR Aid, NRIN, interoperable communications for all public safety including use of new technology software 7. Establish terms of agreements & enter agreements for 6. Promote interoperability for public safety public safety entities to operate with N-WIN in communications within Nebraska 7. Develop protocols/SOPs/guidelines for use of the conjunction with OCIO when arrangements are practical **NSP** and in best interests of the State and the regions local wireless communications network 8. Develop recommendations/strategies to best use of 8. Establish terms of agreements & enter agreements public funds to improve public safety communications for public safety entities to operate with N-WIN in **Manage State** conjunction with OCIO when arrangements are practical NPPD Radio System and in best interests of the State and the regions Infrastructure: **Statewide System** 9. Prepare annual report w/current assessment of Information **Tech support** regional wireless communications networks Technology **Operations Radio System** for NWIN and Support OCIO NCOR **Users Group** Group Recommend new Recommend 8 Planning, Exercise SOPS/Advise usage, system and and Training Regions Implementation infrastructure needs **SFM** NEBRASKA INTEROPERABLE COMMUNICATIONS NETWORK COMPONENTS

Statewide Radio System – Digital trunked radio system across Nebraska NE Regional Interoperability
Network – high speed data
network connecting regions and
their local endpoints

Mutual Aid Radio System – Network of analog radio base stations allowing responders to talk regionally & statewide Integration tools (Paraclete and other tools) – provide ability for responders to talk using disparate radio systems
